

Cascade Pacific Action Alliance

Maternal/Child Health Workgroup

October 25, 2017

Welcome & Introductions

- Introduce yourself: Name, county, organization

WELCOME

Agenda for Today

- Overall Plan
- Discuss Draft Application & Address Gaps
- Discuss Workplan & Address Gaps
- Next Steps

Section I (ACH) Project Update

- Finance Committee has been meeting and made recommendations to the Council and Board about funding allocations
- Last week Council and Board met- decided to move forward on 6 projects and approved funding flows.

Section II (Project Specific Workgroup Activities)

August/September

- Identified target populations
- Discussed engaged providers via RFQ and high-volume Medicaid providers
- Identified Domain 1 assets and challenges (for Section I)
- Developing proposals- HMA and CPAA

October:

- Reviewing Draft Applications and Addressing Gaps
- Reviewing Draft Workplans and Addressing Gaps
- Refining proposals

November: Review project proposals

Draft Project Application: Gaps to be Addressed

- How this project will support sustainable health system transformation for the target population
- How ACH will ensure each project coordinates with and doesn't duplicate existing efforts
- Identifying the anticipated target population (specific numbers, which CPAA will develop)
- Assets and challenges

Gaps to be Addressed: Lasting Impacts for Medicaid Beyond the Target Population

- *Increasing the capacity of providers to provide better sexual and reproductive health services is more easily sustainable as contraceptive care and sexual health screenings are already Medicaid-covered benefits.*
- *We will work with the state and MCOs on how sexual and reproductive health care can be included in value-based payment contracts between a MCO and a provider.*
- *We will also need to explore what types of providers patients are going to receive sexual and reproductive health care. If those patients seek these services from providers other than PCPs, we need to determine how easily those providers can enter into VBP contracts.*
- *Because we will need to be creative in how we expand provider establishment and capacity, especially in rural areas, we will need to be creative in determining how these providers can be paid. Telehealth services, in particular, will present challenges related to PCP assignment and attribution of risk that we will need to try and overcome in 2018 or 2019 to be successful in investing in that type of capacity-building.*

Gaps to be Addressed: How ACH will ensure each project coordinates with and doesn't duplicate

- *An environmental scan to gather the existing MCH home visiting programs in all seven counties and barriers/challenges to expanding. In that scan, we also gathered information on referral pathways into home visiting programs to understand how clients get access to certain programs. This will help us determine improvement strategies for referrals.*
- *What did the scan say?*

Existing RMCH Projects from the RFQ

Org	Target Pop.	Project Description
Arcora	People at high risk for oral disease, maternal/child health, chronic disease (estimated #)	Integrate aspects of oral health into most MTD projects where appropriate
Child & Adolescent Clinic	Children birth to 20 (estimated #)	Add Behavioral Health Specialist to integrated care team and continue collaboration with other community partners
Child Care Action Council	Pregnant mothers not eligible for NFP, with risk factors	Expand existing home visiting services for Parents As Teachers model
Nisqually Tribal Health Department	PMG clinical population w/chronic disease	Improve overall health management and patient engagement with care coordination. Specific interest in partnering to improve Maternal Child Health.
Providence Medical Group	PMG clinical population w/chronic disease	Improve overall health management and patient engagement with care coordination. Specific interest in partnering to improve Maternal Child Health.

Existing Projects from the RFQ

Organization	Target Population	Project Description
Sea Mar Community Health Centers	Sea Mar patients	Provide integrated care and implement the Pathways care coordination model
Health & Social Services in Thurston, Lewis and Mason	First time mothers	Expand available slots for NFP across three counties
Youth and Family LINK	Mothers w/SUD, other Maternal Child Health	Referral hotline, Community Health Workers providing care coordination, linkage with multiple care providers
Thurston County Health and Social Services	South and NW areas of county (estimated #)	Expand geographic reach and hours of operation for SEP (need to be clear about what is happening here- expanding primary care and treating those engaged)?

Assets and Challenges

- What are the assets the region brings to the project?
- What are the challenges?
- How do we address those challenges?

Assets

- PTCPI Grant: child & adolescent clinic. Grant \$
- Some of the community colleges provider health care profession training
- Surveys: BRFSS and Healthy Youth surveys
- Depression screens
- WAIS – immunization registry. Child Profile.
- OTHER ASSETS?
 -
 -
 -

Challenges & Mitigation Strategies

Challenge	Mitigation Strategy
Assuring metrics for well-child visits are included in contracts	
Training practices on revenue cycle changes	
Shortages of certain professions - especially in rural areas	
Incentives such a loan forgiveness or conditional scholarship	
Family planning training, including LARC	
Need more patient registries Standardize EHRs	
Nurse family partnerships and Home Visiting data are not readily available.	

Workplan Review

HEALTH MANAGEMENT ASSOCIATES

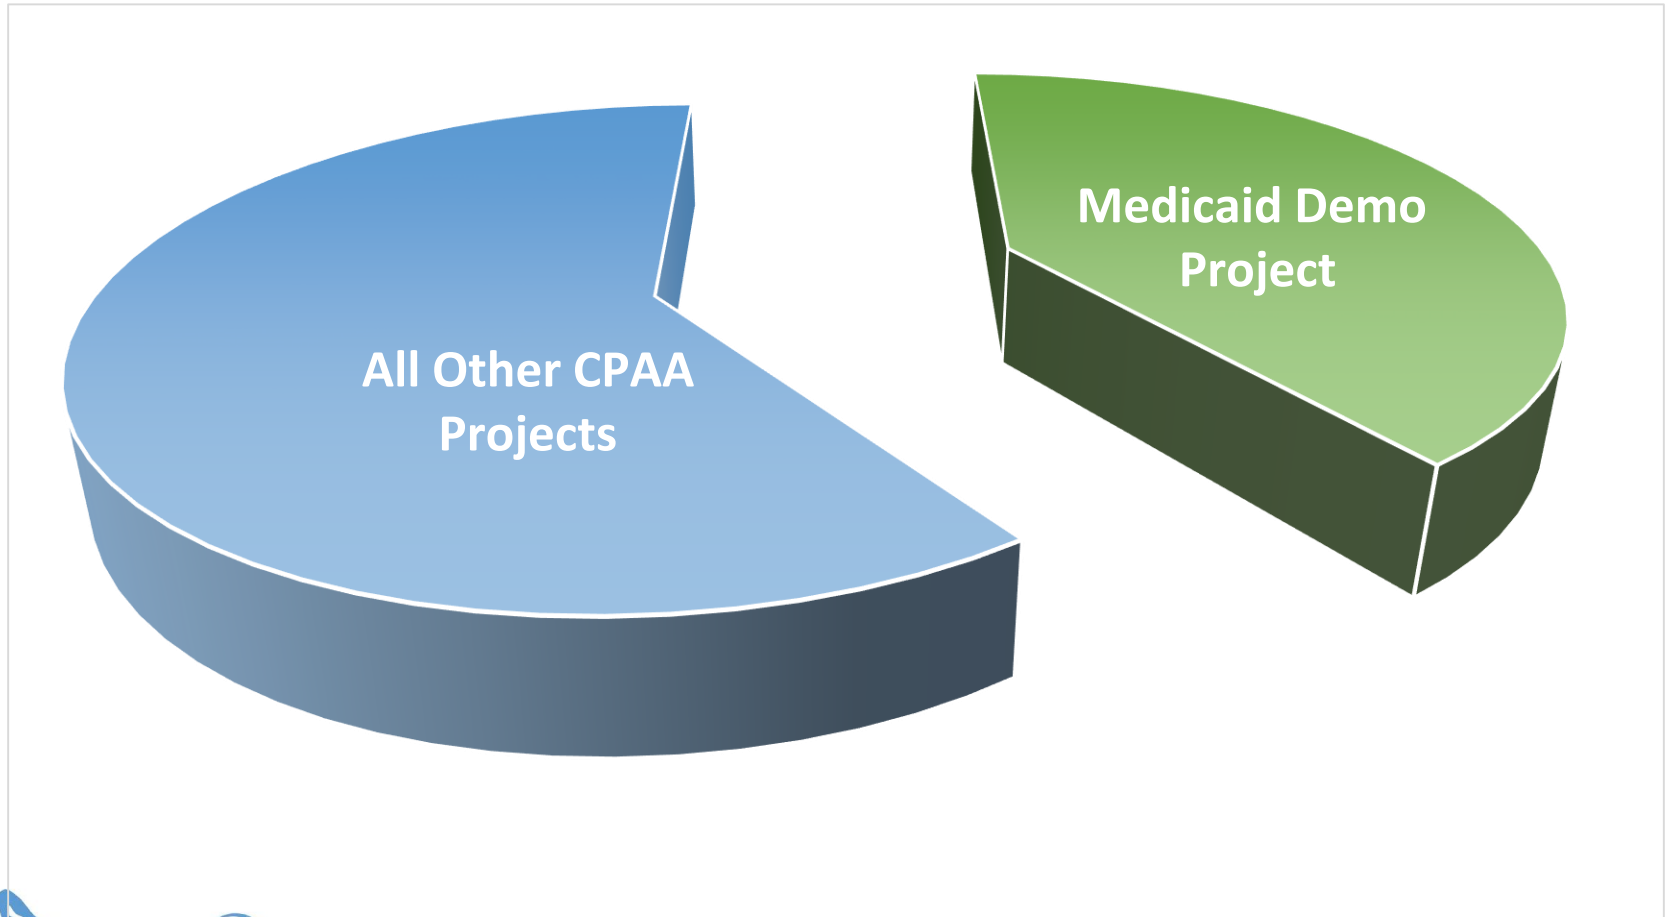

Visually Displaying the Work

Application must include logic model that depicts the work and tells our story

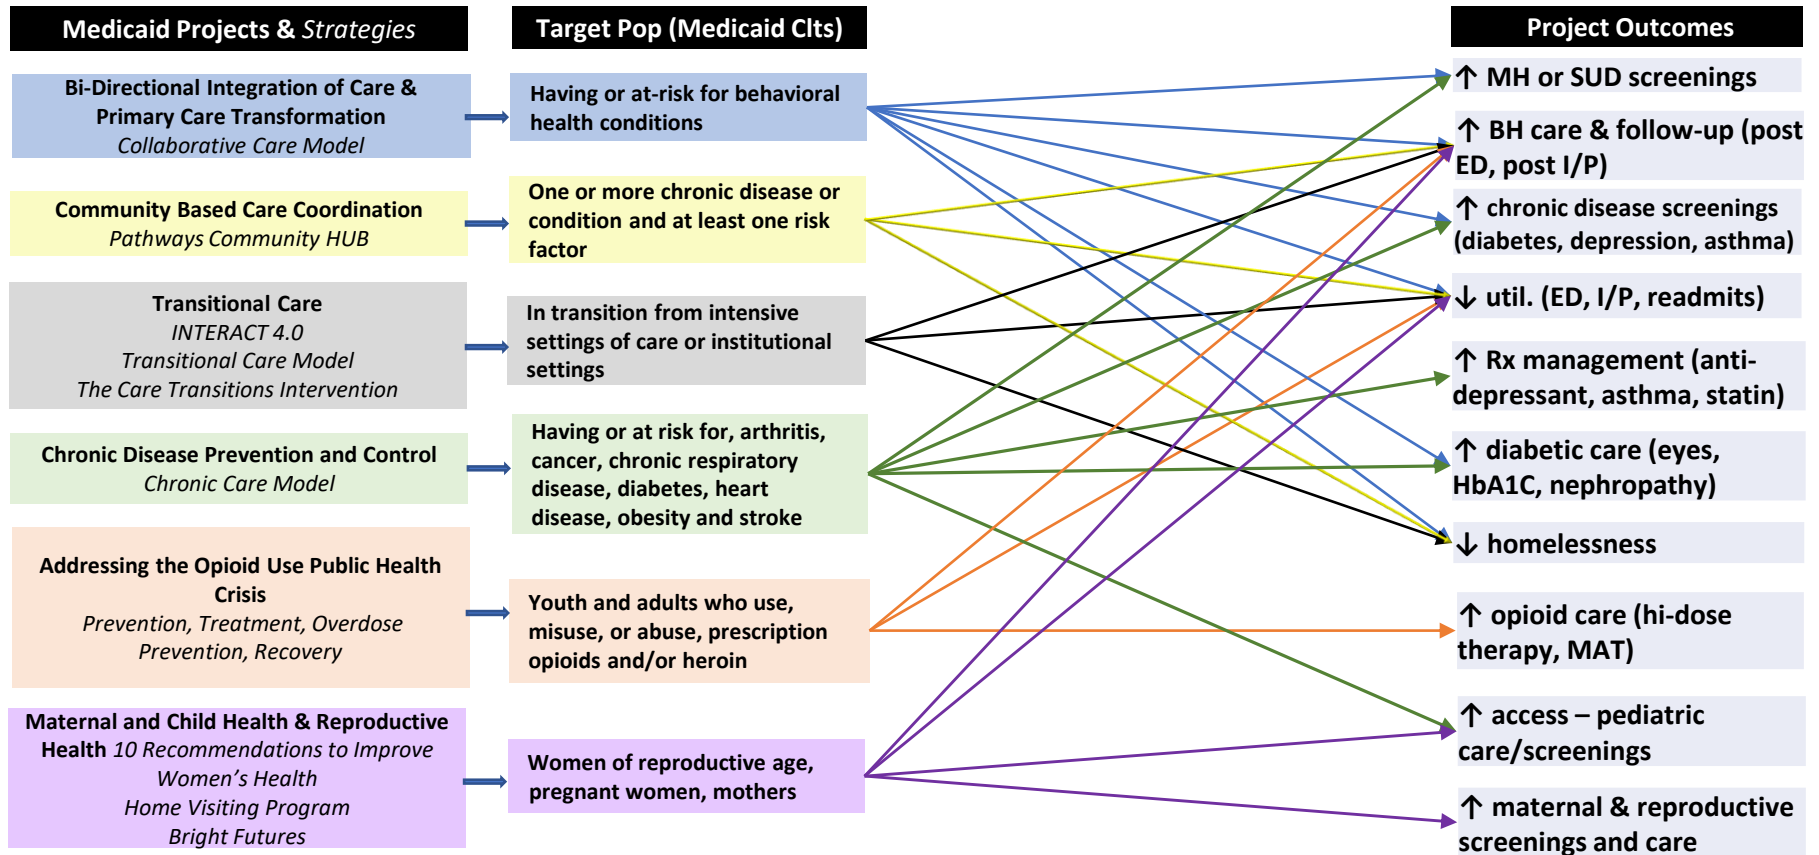

HEALTH MANAGEMENT ASSOCIATES

Medicaid Demonstration is only Part of the CPAA Work

CPAA Medicaid Demo Project Logic Model - Option 1

Next Steps

- Next Meeting: November 29th, 2017
 - Mother Joseph Conference Room, Providence Centralia
 - 914 S. Scheuber Rd, Centralia, WA 98531
- HMA and CPAA Staff working on Project Drafts
- Posted in November for Review/Comment
- Final Project Application to Council & Board for approval
