I. Welcome and Introductions

Christina Mitchell welcomed the work group participants and facilitated introductions. Christina also welcomed Alexandra Toney. Alexandra has joined the CHOICE team as a program manager and will be taking over the Transitional Care work group. Christina reviewed the agenda for the meeting:

- Project Scores and Funds Distribution
- Updated Pay for Reporting Measures
- Timeline
- Capacity Assessment
- Domain 1 Investments
- Next steps and closing

II. Project Scores and Funding Distribution

Christina announced that all nine ACHs received a 100% score for project scoring. CPAA ranked second highest on the initial submission.

CPAA will receiving two different types of funding, DSRIP and IGT. We anticipate receiving the DSRIP funds in March and the IGT funds in May. CHOICE has sent out an instruction letter explaining the registration process for the payment portal. CHOICE is still finalizing the distribution model. Note: Registration for the payment portal does not guarantee payment.

III. Updated Pay for Reporting Measures

First year funding was based on planning in 2017. Funding for 2018 will be earned by meeting milestones outlined in the tool kit.

Next year CPAA will earn money primarily through pay for reporting metrics which are still in development by HCA. Some examples of P4R metrics for years 3-5 are listed below:

- Practice/clinic site is actively sharing information (via HIE) to coordinate care
- Providers are trained on project selected evidence-based approach(es)
- Providers who are trained actively implementing evidence-based approach(es)

- Medicaid Providers are defined as clinic/practice sites who provide physical and behavioral health services paid by Medicaid.

Community Based and Social Organizations All Projects - Examples

- Organization site is actively sharing information (via HIE) to coordinate care
- Organization staff trained on project selected evidence-based approach(es)
- Organization staff implementation of project selected evidence-based approach(es)

These metrics are still in draft form.

IV. Capacity Assessment

An instruction letter has gone out to CHOICE partners about the upcoming survey that will be distributed March 5th 2018. The survey will be available online at www.cpaawa.org and will be available until March 26th. This survey will help identify gaps, assets, and what assistance providers are requesting.

V. Domain 1 Investment

Christina brought up the desire to deepen the conversation about Domain Investment. At this point we have year one funds, but we also have IGT funds for Domain 1. Christina opened up the conversation to see specifically how we can help our region right now. Some of the topics that were covered are listed below.

- Million Hearts Campaign
- Chronic Disease Self-Management Program
 - Bring Training to WA
 - Who is licensed
 - Who should attend
- Community Paramedicine
- What training or educational programs can we bring to CPAA?
- Educational Campaigns
- Workforce
- HIT/HIE

VI. Next Steps and Closing

- Our next meeting will in person. Meeting details to come
- Develop LOI/RFP
 - RFQs are being reviewed
 - Format for RFP to follow
- Register for financial executor portal when the letter is received
- Complete assessment by March 26th

- Submit any requested training or work group topics to Alexandra Toney
 - toneya@crhn.org
