Facility/Provider PAR or Non-PAR (in Network or Out of Network):	

Psych Testing, ECT, Non PAR: ADDITIONAL CLINICAL DOCUMENTATION:

To protect PHI, follow all HIPPA Guidelines:

Only include medically necessary documentation. **Do NOT fax extraneous or old chart documentation**

Psychological Testing:

- Diagnoses and neurological condition and/or cognitive impairment (suspected or demonstrated)
- Description of presenting symptoms and impairment
- Member and Family psych /medical history
- Documentation that medications/substance use have been ruled out as contributing factor
- Test to be administered and # of hours requested, over how many visits and any past psych testing results
- What question will testing answer and what action will be taken/How will treatment plan be affected by results

Electroconvulsive Therapy (ECT):

- Acute symptoms that warrant ECT (specific symptoms of depression, acute mania, psychosis, etc.)
- ECT indications (acute symptoms refractory to medication or medication contraindication)
- Informed consent from patient/guardian (needed for both Acute and Continuation)
- Personal and family medical history (update needed for Continuation)
- Personal and family psychiatric history (update needed for Continuation)
- Medication review (update needed for Continuation)
- Review of systems and Baseline BP(update needed for Continuation)
- Evaluation by anesthesia provider (update needed for Continuation)
- Evaluation by ECT-privileged psychiatrist (update within last month needed for Continuation)
- Any additional workups completed due to potential medical complications
- Continuation/Maintenance: *as covered per benefit package
- Information updates as indicated above
- Documentation of positive response to acute/short-term ECT

Indications for continuation/maintenance

Non-PAR Outpatient Services: *as covered per benefit package

- Rationale for utilizing Out of Network provider
- Known or Provisional Diagnosis and Current Symptoms
- Any Known Barriers to Treatment
- Plan of Treatment including estimated length of care and discharge plan
- Additional supports needed to implement discharge plan

ASAM Assessment

- 1. To protect PHI, follow all HIPPA Guidelines: Only include medically necessary documentation.**
- 2. Do NOT fax extraneous or old chart documentation. Limit extra documentation to 4-8 pages**
- 3. Address MAT considerations.**
- 4. Succinctly address all ASAM dimensions and use this basic format or an ASAM dimension checklist**
- 5. If you cannot complete the ASAM assessment due to member's condition please detail explanation. It might be more appropriate to call for a Prior Auth in this instance.**
- 6. If the assessment is within two weeks but not current, please send assessment and briefly update dimensions sections below or send in an addendum.**
- 7. If the assessment is over two weeks old, redo the assessment.**

American Society of Addiction Medicine (ASAM) DIMENSION 1: (ACUTE INTOXICATION OR WITHDRAWAL POTENTIAL)

Substance use diagnosis:

Is MAT being considered Y N N/A

If Yes: MAT anticipated start date:

MAT Medication:

If No why:

Has MAT been used in the past Y N N/A UNK

Substance use history (substance/amount/frequency/route/first use/last use):
